ABOUT ME

Motivated Computer Science undergraduate with a solid understanding of web development and programming fundamentals. Skilled in JavaScript, Python, and the MERN stack (MongoDB, Express.js, React.js, Node.js), with practical experience in developing responsive web applications and RESTful APIs. Possesses a basic understanding of machine learning and data processing, and is eager to leverage technical skills to solve real-world challenges in a dynamic work environment.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science
Parul University, Vadodara, Gujarat
Expected Graduation: 2027

SKILLS

Language : Java, Python, JavaScript

Frontend : React.js, HTML5, CSS3, JavaScript

Backend : FastAPI, Node.js, Express.js, Flask

Databases : MongoDB, SQLite (Basic)

Tools & Platforms : Git, GitHub

PROJECTS

Career Gap Analyzer – Job Finder

- Built an AI-driven platform to detect career gaps and match users with suitable jobs.
- Designed REST APIs for resume upload, analysis, and job recommendation.
- Used AI for extracting skills and generating improvement suggestions.
- **Tech** : MERN Stack, OpenAI API

AI-Based Livestock Disease Detection

- Built an AI-powered web application to monitor livestock health and detect early disease risks using sensor data.
- **Tech** : Python, Flask, scikit-learn, Bootstrap, REST APIs

AI-the seconf brain for student

- Built an AI-powered learning assistant to help students organize notes, revise effectively, and test knowledge
- Designed REST APIs for note upload, chatbot interaction, quiz generation, and exam paper creation.
- Integrated AI to generate quizzes, summaries, and personalized study recommendations.
- **Tech** : Node.js, Express.js, MongoDB, JavaScript, Gemini API, Ollama, ChromaDB
