ABOUT ME

Enthusiastic Computer Science undergraduate with a strong foundation in development and programming. Proficient in JavaScript, Python, and MERN stack (MongoDB, Express, React, Node.js) with hands-on experience in building responsive web applications and REST APIs. Familiar with basic machine learning concepts and data handling, and eager to apply technical skills to real-world problems in a growth-oriented organization.

EDUCATION

Parul University, Vadodara, Gujarat,

2027

Bachelor of Technology (B.Tech) in Computer Science

Expected Graduation : 2027

Cumulative CPA : 6.93 / 10.0

SKILLS

Language — Java, Python, JavaScript

Frontend — React.js, HTML5, CSS3, JavaScript, Angular

Backend — FastAPI, Node.js, Express.js, Flask, REST API

Databases — MongoDB, SQLite (Basic)

PROJECTS

Career Gap Analyzer – Job Finder

- Built an AI-driven platform to detect career gaps and match users with suitable jobs.
- Tech: MERN Stack, OpenAI API

AI-Based Livestock Disease Detection

- Built an AI-powered web application to monitor livestock health and detect early disease risks using sensor data.
- Tech: Python, Flask, scikit-learn, Bootstrap, REST APIs

ACHIEVEMENT

- PU CODE HACKATHON 3.0 (23-24 Jan 2026) : Certificate of Participation
- AESTR ALPHA AI SUMMIT (6-7 Feb 2026) : Certificate of Achievement , Certificate of Participation
